# SiteLink + SpareFoot Contactless Move-In Capabilities

At Storable, we believe that providing contactless move-ins to your tenants is not only safer and more convenient, it also unlocks new efficiency benefits for your operation. With new ways for managers to initiate online move-ins from SiteLink, and deeply integrated online move-in capabilities built into SpareFoot, you have more ways than ever to provide this critical service to your prospective tenants. These capabilities are exclusively available as part of the Storable platform, which delivers a fully integrated experience across our products. The result: a better experience for you and your tenants.

CONTACTLESS MOVE-INS

# SITELINK FMS **ONLINE MOVE-INS**

Drive more rentals with the new and enhanced flexibility within SiteLink's Web Template online move-in solution

Empower prospective tenants to move in online from anywhere, thanks to a new SiteLink Keyword that provides a direct URL to your online move-in experience, regardless of how their initial reservation was made

### **SPAREFOOT ONLINE MOVE-INS**

Deliver an enhanced storage shopper experience by offering online move-ins through SpareFoot that directly flow into your SiteLink software

Convert more leads to move-ins by taking SpareFoot reservations through your Web Template online move-in flow via a direct link right on the SpareFoot reservation confirmation page

## **SPAREFOOT CONTACTLESS BADGING**

Activate the new contactless move-in badge on your SpareFoot listing to let the public know that your facility prioritizes their safety and convenience

Attract more leads by showing that your facility meets the needs of customers who are seeking a contactless experience
