FULLY AUTOMATED MOVE-INS

>> Customers can rent online and access the property with their mobile phones

>> No longer a need to have a manager "remove the yellow lock"

>> Tenants can access their unit, monitor activity, and share a digital key all from the palm of their hand

>> Operators across the country are charging premiums for "smart units"
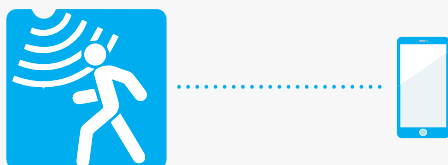

CUSTOMER CONVENIENCE

IMPROVED OPERATIONS

>> Automatic overlocking and lock checks

>> Eliminate gate related call center calls

INCREASED VISIBILITY & CONTROL

>> View and monitor access data across your entire portfolio from anywhere in the world

>> Use real-time access data to charge higher rates for higher use tenants

ENHANCED SECURITY

>> Interior electronic locks on unit doors help eliminate theft from tailgating

>> Detect customers living in units with thermal motion sensors inside every door
